**Re: Application for Duke Energy Carolinas, LLC for Approval of Rider 6,
Demand-Side Management and Energy Efficiency for 2015
Docket No. 2014-334-E**

Dear Ms. Boyd:

In preparing the tariff approved by the Commission in this docket, Duke Energy Carolinas, LLC ("DEC" or "the Company") noted that when the individual rates for the various Vintage participants are added together, they total .2561 rather than .2560 as listed on page 10 in the South Carolina Office of Regulatory Staff's Report ("ORS Report"). See also ORS Report Exhibit 1. This appears to be a rounding issue. The Company requests leave from the Commission to file a tariff that contains the approved rates for each Vintage as listed in ORS Report Exhibit 1 and which totals .2561 for non-residential customers rather than .2560.

There is also another issue that we think requires a modification to what was approved. For qualifying non-residential customers there is an opt-out period that is scheduled to run from November 1 to December 31, 2014. Given the delay in the posting of the tariff, DEC would also ask the Commission to approve an extension of the opt-out period to January 31, 2015. Such an extension would ensure customers have ample opportunity to consider whether they will participate in the Company's demand-side management and energy efficiency programs during 2015. A similar extension of the opt-out period was approved last year in Docket 2013-298-E by Order No. 2013-243.

If you have any questions, please let me know.

Yours truly,

ROBINSON, MCFADDEN & MOORE, P.C.
